MEMORANDUM FOR: Director of Central Intelligence

FROM:

[REDACTED]  
Deputy to the DCI for Resource Management

SUBJECT: DSD Duncan's Memorandum on Implementation of  
E.O. 12036

1. Action Requested. Use the Talking Points at Tab A in discussion with the Secretary of Defense.

2. Background.

a. DSD Duncan's memorandum (Tab B) established Defense ground rules for implementation of E.O. 12036 (Tab C).

b. You indicated a need for specifics to use in discussing the Duncan memorandum with Secretary Brown.

c. Our main concerns which you ought to register with Secretary Brown before discussing specifics are:

(1) This memo provides the basis for tying the entire process of management into knots should someone be so inclined. For example, under the provisions of paragraph 7b, program manager initiated reprogramming may never get to you. Or, as another example, proposed testimony will risk a full additional edit cycle before you ever see it if paragraph 9 stands.

[REDACTED]

SUBJECT: DSD Duncan's Memorandum of Implementation of  
E.O. 12036

25X1

d. I have also included, at Tab D, the prior version of DSD Duncan's memorandum together with the cover note we prepared last Friday, 24 February. Tab E provides a first cut at substitute language more in line with what E.O. 12036 contains, should you wish to use it.

3. Recommendation. Use the points at Tab A in your discussion with the Secretary of Defense.
